Lazy H Square #2

Calvin Campbell

Some time back I posted about Lazy H squares. Click Here. At the time of the post I didn't have a video. I have found a video by Jerry Helt of a Community Dance where he called this figure and also several other variations of the figure. Click Here.
I really like how Jerry presents this dance. As you will see, some people have problem with some of the choreography, but most of them get through it.

As a side light, I found a version of this figure in Henry Ford's "Good Morning". So the concept is certainly not new.
